

# SRUTHI RAMESH

## EXPERIENCE

### UX Designer Homeseach

London, United Kingdom  
May 2019 - current

Designed the entirety of both the public and agent-only platforms of Homeseach and worked closely with developers to understand technical tradeoffs and oversee development.

Public side: Created the consumer-facing version of homeseach.com where users can search for listings matching their criteria, look up details of any property in the UK, and also contact similar homes that may sell in the future.

Agent side: Created the agent-only data side of Homeseach where agents can login to see advanced property, street, and district specific data on any property in the UK, prospect listings on the market with other companies, and find and send letters to homes matching their clients' needs.

### UX Designer Equinix

San Francisco, California  
April 2018 - April 2019

Designed and created prototypes of multiple web pages and tools as the only UX designer on the equinix.com redesign. Collaborated with a small team of content writers, visual designers, and stakeholders through weekly design reviews.

### Experience Designer Tangelo

Palo Alto, California  
August 2017 - April 2018

Researched and designed end-to-end web, tablet, and mobile experiences for multiple clients in various industries, including Vitamasques, James Henry SF, and Intel. Worked closely with developers to oversee website and mobile app development.
